INTRODUCTION

USE GET HELP NOW AND FAQs

Using *ScholarOne Manuscripts* for your journal, one of your greatest help tools is our role-base support pages. The [Editor Support](#) page contains downloadable guides (such as this one), video tutorials and FAQs.

The ability to create a case to get assistance from our customer support group, can be found on the [Contact Support](#) page. We recommend that you bookmark our help pages and consult it often.

SITE CONFIGURATION AND THIS DOCUMENT

ScholarOne Manuscripts is configured for your specific site based on the needs of the journal or publisher. The role names and fields used in this document may differ from your site. The essential functions will be the same; however, you may not have some of the configurable options available to you.

ACCESSING SCHOLARONE MANUSCRIPTS

Each journal's site has a unique web address that should be provided to you by your site Admin via e-mail. To access the site, click the link within the e-mail or enter the web address (URL) in the address field of your browser. If the journal has not already created an account for you, you can create your user account. To begin, click the **Create Account** link on the journal's Log In screen.

The screenshot shows the ScholarOne Manuscripts login interface. At the top, there is a navigation bar with links for 'Log In', 'Reset Password', and 'Create An Account'. The 'Create An Account' link is circled in purple. Below the navigation bar, there is a 'Log In' section with a dropdown menu for 'Journal', input fields for 'User ID' and 'Password', a 'Reset Password' link, and buttons for 'Log In' and 'Create An Account'. The 'Create An Account' button is also circled in purple. To the right of the login section, there is a welcome message and instructions. At the bottom, there is a 'Resources' section with links for 'User Tutorials', 'Instructions & Forms', and 'Help / Site Support'.

During account creation, new users may be given the option to associate an ORCID iD with their account by either registering for a new ORCID iD or associating an existing ORCID iD. Each of these options will be presented to the user as links in the first step of the account creation process. In prior versions, users creating a new account, the user entered their ORCID as text in the third step of account creation.

Create an Account

There are three screens to fill out in the Create Account process. In this first screen, enter your name and e-mail information into the boxes below. Required fields are marked with "req." When you are finished, click "Next."

E-mail Addresses

- E-mails will always be sent to the 'Primary E-mail Address'. If you would also like copies of the e-mails to go to a second address, please complete the 'Primary Cc E-mail Address' as well.
- 'Secondary E-mail Address' and 'Secondary Cc E-mail Address' are for the records only and will not receive correspondence generated from the system. The site administrator may use these if your primary e-mail is unable to receive messages.

- 1** E-Mail / Name
- 2 Address
- 3 User ID & Password

ORCID®

Select the appropriate option below to associate an ORCID ID to your account.

[Create an ORCID iD](#)
[Associate your existing ORCID iD](#)

Open Researcher and Contributor ID (ORCID) is a non-profit organization dedicated to solving the long-standing name ambiguity problem in scholarly communication by creating a central registry of unique identifiers for individual researchers and an open, transparent linking mechanism between ORCID and other current author identifier schemes. To learn more about ORCID, please visit <http://orcid.org/content/initiative>.

Prefix:

When the user selects one of these options to associate an ORCID iD with their account, a new browser window will open and special registration page on the ORCID website allowing the user to enter their existing ORCID credentials, link an existing ORCID iD, or register for a new ORCID iD.

[iDea for ORCID site?](#)

Once the user has validated an ORCID iD using one of the options, they will be asked to either authorize or deny the journal access to their 'limited' data.

If the user clicks **Authorize**, they will be redirected back to their journal's ScholarOne site with a validated ORCID iD.

CHANGING YOUR USER ACCOUNT INFORMATION

Your e-mail address, phone number, or address may change over time. To edit your own account information, click on your name in the upper right corner of the site pages. Then select the area of information you need to edit. Edit My Account pages contain the information you entered when creating your account, in editable form. Edit information as needed including changing your user ID and password.

Note: Please retain your new password. ScholarOne will not send your password via e-mail.

LOGGING IN/OUT

► Log In

1. Each journal's site has a unique Web address that is sent to you by e-mail. To access the site, click the link within the e-mail or enter the web address (URL) in the address field of your browser. The journal's Log In page opens.

The screenshot shows the ScholarOne Manuscripts™ Log In page. At the top, there is a navigation bar with "Log In", "Reset Password", and "Create An Account" links. The main content area is titled "Log In" and includes a "Journal" dropdown menu set to "ScholarOne University Training Workflow 1". Below this are input fields for "User ID" (containing "gw3nni31") and "Password" (masked with dots). A "Reset Password" link is positioned below the password field. At the bottom of the form are "Log In" and "Create An Account" buttons. To the right of the form, a welcome message reads: "Welcome to the submission site for ScholarOne University Training Sites. To begin, log in with your user ID and password. If you are unsure about whether or not you have an account, or have forgotten your password, go to the [Reset Password](#) screen." A "Resources" section at the bottom left lists links for "User Tutorials", "Instructions & Forms", and "Help / Site Support".

2. Enter your User ID and Password
3. Click the Log In button.

► ORCID Log In

The journal site may be configured to use ORCID Login. Select the **Log In With ORCID iD** button at the bottom of the Log In box.

You will then log in to ORCID ID or register an ORCID account.

If the you have used this login process before or have already linked your ORCID iD to your ScholarOne profile, you will automatically be logged in to the ScholarOne site.

If this is their first time linking your ORCID and ScholarOne accounts together, you will be asked to authorize the publisher or journal to get their ORCID iD and to read limited-access information such as their name and address. Reading limited-access information will make it easier for new users who do not have a ScholarOne account to pre-fill their profile information when creating an account.

ORCID

User Name
<https://orcid.org/0000-0000-0000-000>

(Not You) ?

Journal Name ?
has asked for the following access to your ORCID Record

Read your information with visibility set to *(user defined)*
Get your ORCID ID

This application will not be able to see your ORCID password or any other information in your ORCID record with visibility set to Only me. You can manage permission granted to this and other Trusted Organizations in your [account settings](#).

[Authorize](#)

[Deny](#)

Next, you will link your ORCID account to the ScholarOne site. You will see the option of creating a new account or logging in with your existing site credentials.

ORCID

Link your ORCID iD to this Site

Simply log in to your existing account on this site once or create a new account.

Afterwards, you'll be able to use your ORCID credentials to sign in immediately.

[Create An Account](#) [Log In With An Existing Account](#)

If you already have an account on the ScholarOne site, you will only need to provide your ScholarOne login credentials once. Afterwards, you can use either the ScholarOne or ORCID credentials to log into the participating site.

► Log Out

1. You can log out at any time by clicking **Log Out** at the top right corner of the page you are on.

2. You will be returned to the Log In page.

Note: After 3 hours of inactivity you will be automatically logged out and returned to the Log In page.

FORGOT YOUR PASSWORD?

► Reset Password

1. Select the **Reset Password** link.

2. Enter your email address and you will be sent a link to reset your password.

NAVIGATION OVERVIEW

HOME PAGE

The Home Page contains top-level navigation based upon roles. You will only see the roles you have permissions to. It also contains side navigation to your different publications (if applicable).

The Home page contains many convenient navigation features as well as site-specific information and images.

Header

Quick Links: Access the following functions:

- Your user name – click to edit your account
- Instructions & Forms– journal-specific instructions for users and any journal-specific forms required for the peer review process; Admins see the screens for editing the page
- Help – links you to various help functions
- Log Out

Journal Logo

Top-Level Menu: Access the role-specific centers and functions through this menu. Users see only centers they have access to. Some centers, such as Admin and Editor, are grouped together under a heading with a drop-down list. This menu is displayed wherever you are working in the system to allow you to easily move between functions.

Left menu: Access options to switch to another journal (if configured) and links to help and documentation.

The Breadcrumb Trail: The menu path you have followed to arrive at the current page. You can click a link to navigate back to a previous page.

Simple Search: This feature displays in the header for the Admin, Associate Editor, EIC, and Production Editor Dashboards. You may perform a wildcard search by placing an asterisk (*) at the beginning and/or end of your search text.

FOOTER FEATURES

In addition to copyright and trademark information, the footer contains:

- Link to ScholarOneNews
- Link to System Requirements
- Link to Privacy Statement
- Link to Terms of Use

LANGUAGE TOGGLE

Language toggle allows you to switch the display from the default language of English to another language. If configured for your site, you will find the language toggle located on the header at the top of the screen.

Note: All uploaded documents and end-user supplied text will not toggle and will be displayed in the language entered by the user.

OVERVIEW OF THE EIC AND ASSOCIATE EDITOR CENTER

The EIC and Associate Editor dashboards allow editors to take actions such as assigning reviewers as well as to track the progress of the reviews.

EIC VIEW

The dashboard for both the EIC and Associate Editor look somewhat the same. The main difference is that the EIC can see where papers are in queue with their Associate Editors. The EIC view shows all papers in the review process while the Associate Editor view shows only those assigned to an individual Associate Editor.

Editor-in-Chief Lists	Quick Search - Show Advanced Search
You may click on the manuscript list title to view a full listing of manuscripts in each status, or click on the number next to the list to jump directly to the first manuscript in the list. 0 Awaiting AE Assignment 2 Awaiting Reviewer Selection 0 Awaiting Reviewer Invitation 0 Awaiting Reviewer Assignment 0 Awaiting Reviewer Scores 0 Overdue Reviewer Scores 2 Awaiting AE Recommendation 0 Awaiting EIC Decision	You may conduct a wildcard search by adding an asterisk (*) to the end of the search string. For example, to view a list of all of the manuscripts whose titles begin with the words "neuroscience" or "neurology" simply type "neuro*" in the Title field and click "Search."
Reports + Manuscript Status and Summary Reports + Peer Review Details Reports + User Performance Reports • Publication Folders, My Folders, Custom Reports, and Role Reports • At-A-Glance Statistics	Saved Search: Select...  Edit Manuscript ID: Title: Author's First (Given) or Last (Family) name: * Keywords: ☒ Pick  Search

Note: By being able to see where papers are in process, this gives the EIC the ability to make immediate decisions on papers that have been out for review for too long.

ASSOCIATE EDITOR VIEW

The Associate Editor View of papers in process is broken out into actions; Select, Invite and Assign Reviewers. The Associate Editor can all keep track of Reviewers who have not responded to being invited, as well as overdue reviews.

Associate Editor Lists	Quick Search - Show Advanced Search
You may click on the manuscript list title to view a full listing of manuscripts in each status, or click on the number next to the list to jump directly to the first manuscript in the list. 2 Awaiting Reviewer Selection 0 Awaiting Reviewer Invitation 0 Overdue Reviewer Response 0 Awaiting Reviewer Assignment 0 Awaiting Reviewer Scores 0 Overdue Reviewer Scores 2 Awaiting AE Recommendation	You may conduct a wildcard search by adding an asterisk (*) to the end of the search string. For example, to view a list of all of the manuscripts whose titles begin with the words "neuroscience" or "neurology" simply type "neuro*" in the Title field and click "Search." Saved Search: Select...  Edit Manuscript ID: Title: Author's First (Given) or Last (Family) name: * Keywords: ☒ Pick  Search
Reports  Manuscript Status and Summary Reports  Peer Review Details Reports  User Performance Reports * Publication Folders, My Folders, Custom Reports, and Role Reports	

ACCESS MANUSCRIPTS VIA THE EDITOR LISTS

To view manuscript information, you may select any active hyperlink in the Editor Lists section of your dashboard.

► Access Manuscripts via the Editor Lists

1. From the Editor dashboard, select any active link in the Editor Lists.

2. The View Manuscripts page displays a table containing any manuscripts in the selected status category. For example, if you clicked the link for **Select Reviewers** task, the table will display the Select Reviewers header and all manuscripts listed are in a status where the next step is to complete the Select Reviewers task.

Select Reviewers				Manuscripts 1-1 of 1
Manuscript ID ↑	Manuscript Title	Date Submitted ↓	Status	Take Action
Manuscript Type	Submitting Author			
MCU1-201703-0002-IR	NEW TITLE [View Submission]		AE: Gerber, Adrienne EIC: Not Assigned ADM: Baker, Gwen	
Invited Review	 Author, Jane (contact)	12-Sep-2017	* Select Reviewers (Due 18-Mar-2018) 1 active selections; 1 invited; 0 agreed; 0 declined; 0 returned	
 Export to CSV				Manuscripts 1-1 of 1

3. Each manuscript listing displays the following:
 - **Manuscript ID:** A system-generated ID unique to the manuscript
 - **Manuscript Type:** Category of manuscript
 - **Manuscript Title:** The title of the manuscript and a link to view the submission

- **Submitting Author:** Name of the submitting author, a button to view author details, and a hyperlink to send the author an e-mail
 - **Date Submitted:** Date of submission (or revision if viewing a revision)
 - **Status:** Status of the submission in the peer review process and the editorial staff assignments
 - **Take Action:** A button which initiates the next action to be taken on the submission
4. You can sort the list by clicking on a (linked) column header.
 5. Select an action from the **Take Action** button to access the Manuscript Details.

ASSIGNING EDITORS

ASSIGN ASSOCIATE EDITOR – EIC ROLE

► Assign Associate Editor

1. In most workflows, the EIC will assign the Associate Editor to the manuscript. Click **Assign AE**.

2. The list of papers that needs assignment displays. Click on the **Take Action** icon to go directly to the task and full details of the manuscript.

Awaiting AE Assignment				Manuscripts 1-1 of 1
Manuscript ID 	Manuscript Title	Date Submitted 	Status	Take Action

SELECT, INVITE, AND ASSIGN REVIEWERS

OVERVIEW OF SELECT, INVITE AND ASSIGN REVIEWERS – ASSOCIATE EDITOR ROLE

In many workflows, the Associate Editors select, invite and assign Reviewers.

- **Select** – is to create the pick list of reviewers who you would like to invite to review.
- **Invite** – is to send out the Invitations to the reviewers.
- **Assign** – is usually automated but can be completed by using the drop down selection.

About the Progress Indicator

Throughout the process of assigning reviewers, the progress indicator shows you exactly what is required for task completion and which steps have been completed. Typically, the number of reviews required to make a decision is an editable field.

Progress		
# reviews required to make decision	2	
# active selections	0	
# invited	0	
# agreed	0	
# declined	0	
# returned	0	
☒ Save		

If your journal has chosen to make this an editable field, you can change the number of default reviews required by typing a different number in the field and clicking **Save**.

Bypassing the Peer Review Process

To bypass the review process entirely, change the **# reviews required to make decision** setting to 0. The manuscript moves to the next action task in the workflow -- typically a Make Decision, Make Preliminary Decision, or Make Recommendation task.

Double-Queuing of Manuscript

Manuscripts can appear in two different queues in your Editor Lists section of your dashboard. This can occur if you have a required number of reviews and those reviews are in different stages.

In the example below, there are two required reviews, as indicated in the progress indicator on the Manuscript Details page. One reviewer has accepted, and one has declined. Since reviewer declined, the manuscript appears in the Select Reviewers queue. Since the other has accepted, but is overdue, the manuscript also appears in the Overdue Reviewer Scores queue.

While this is an accurate representation of the status of the paper, it may appear confusing when looking at the Editor Lists where you might count the manuscript twice. It will change if you invite additional reviewers and they accept, or if you do not wish to invite additional reviewers, you may reduce the number of required reviews in the progress indicator.

Associate Editor Lists

You may click on the manuscript list title to view a full listing of manuscripts in each status, or click on the number next to the list to jump directly to the first manuscript in the list.

7. Locate the reviewer(s) and click the Add checkbox next to the reviewer name.
8. Click the Add button at the bottom of the search results to add checked reviewers.

Reviewer Search Methods

There are several methods of finding a reviewer. Each method is described below.

Author's Recommended / Opposed Reviewers

This is a listing from the Author that they supplied during the submission process. The example below shows a recommended reviewer. If you wish to use this reviewer, click the **Add** checkbox, then the **Add** button.

If configured on your site, the institution of the preferred/non-preferred reviewer will be listed below the reviewer name. Also available if configured, you may click directly on the links to the external searches for Google and Web of Science to research the reviewer.

Author's Recommended / Opposed Reviewers					
Name, Keywords, Institution, Roles	External Searches 	Current / Past 12 Months	Days Since Last Review	Average R-Score	Add
Reviewer, Robin recommended strong knowledge of the concepts discussed	Google WEB OF SCIENCE	0 / 0	0	0	☐
					Add

Reviewer Locator Results from the Web of Science®

If configured for your site, search requests are generated automatically for each manuscript when it reaches the Select Reviewers task so results are waiting for the editor as soon as they enter the site.

Note: Only submissions with an abstract will return Reviewer Locator results.

Each potential reviewer found in the Web of Science is returned with a set of biographic and bibliographic data designed to help the AE assess the potential reviewer's suitability for the submitted manuscript. In addition to the reviewer's name, their e-mail address and institutional affiliation will be provided, when available. Their ORCID iD will be provided as a link to their ORCID record. In addition, up to three papers published by the potential reviewer will be listed in order of relevance to the submitted manuscript.

Reviewer Locator Results from the Web of Science®						Results 1-20 of 20
Potential Reviewer Details	Current / Past 12 Months	Days Since Last Review	Open Invitations	Date of Last Invitation	Average turnaround time	Add
Fargo, Tina. S1, Electronic Pub  http://orcid.org/0000-0001-7756-6625 ✓ Roles: AU REV + Add						
• SPECTROSCOPIC MODELING OF THE ALGOL-TYPE view details						

Each listed publication will have a **View Details** link which, when selected, will bring up more information about the paper. In addition to authors, journal name and publication year, both the DOI and Web of Science record are provided as links for quick access to additional information.

Reviewer Locator Results from the Web of Science®							Results 1-20 of 20

Adding New Reviewers

If the person you would like to have review the manuscript is not in the system, the ability to **Create Reviewer Account** allows you to add the person into the system.

Create Reviewer Account

Salutation:

req First (Given) Name:

req Last (Family) Name:

req E-Mail Address:

[Provide more account info](#)

☒ **Create and Add**

Note: Please be sure to have the correct e-mail address for the person before you create an account.

INVITE A REVIEWER

Once the reviewers have been selected for the manuscript, their names will appear in the Reviewer List with a Status of Invite. Clicking on the invite icon will open an editable e-mail.

Reviewer List				
Order	Name	Status	History	Remove
1 ▼	 Reviewer, John proxy	☒ Invite	Selected: 09-Mar-2018 view full history	
2 ▼	 Reviewer, Lilly proxy	☒ Invite	Selected: 09-Mar-2018 view full history	

Invite All

If you want to send all the invitations at one time, there is an icon called Invite All.

Selecting this icon will pop-up a window that will show the names of each reviewer and which e-mail template will be sent to the reviewer when you click on the Invite All icon. You can also select to edit any e-mail in the list before sending.

Invite All		
Name	E-Mail Template	Edit Before Sending

Alternate reviewer list

Some sites are configured with ability to set up an alternates list. Using the Order column, you can move reviewers into the list. If anyone from the main reviewer list declines to review, the system will auto-invite from the alternates list.

Reviewer List				
Order	Name	Status	History	Remove
1 ▼	 Reviewer, John proxy	☒ Invite	Selected: 09-Mar-2018 view full history	
2 ▼	 Reviewer, Lilly proxy	☒ Invite	Selected: 09-Mar-2018 view full history	
Alternates				
Alternate 1 ▼	 Hager, Paul proxy			
Alternate 2 ▼	 Reviewer, Mike proxy			
☒ Invite All ☒ Save				

Note: Number in the main reviewer list must match the number in the Progress box in order for the alternates list to work properly.

ASSIGN A REVIEWER

Since the invite e-mail to reviewers contains links to agree and decline, usually the assign reviewer task is completed automatically by the system. However, there is a dropdown selection for the Editor to choose the appropriate response if needed.

Reviewer List				
Order	Name	Status	History	Remove
1 ▼	 Reviewer, John proxy	Invited Response Select... Select... Auto-Denied Agreed Declined Late Response No Response Unavailable ☒ Save	Invited: 09-Mar-2018 view full history	
2 ▼	 Reviewer, Lilly proxy	Invited Response ☒ Save	Invited: 09-Mar-2018 view full history	
Alternates				

One the reviewer' status is Agreed, the paper moves into the Reviewer's Center so they may begin their review.

- [rescind](#)

☒ Save

To rescind a review means to move the review back to the reviewer. This will put the review in a draft status and allow the review to make any changes that need to be made. When you rescind a review, an e-mail should pop up for you to send to the reviewer. If you do not get a pop up e-mail, click on the name of the reviewer to send a hyperlink e-mail.

MAKING MANUSCRIPT DECISIONS

When making decisions on manuscripts, it is good to remember to save often to avoid losing any work. The examples below indicate the roles that most commonly take the actions described, but your site may vary.

MAKE FINAL DECISION - EIC OR ASSOCIATE EDITOR

Make your final decision based on the reviews you have received from reviewers. Select your decision type and enter any comments. Clicking the **Create Draft E-Mail** button allows you to customize the decision e-mail. Clicking **Commit Decision** will save the decision and send the e-mail to the author.

The screenshot shows the 'Final Decision' interface. At the top, a tab labeled 'Make a Decision' is highlighted. Below it, a list of decision options is shown with radio buttons: Accept, Minor Revision, Major Revision, Reject & Resubmit, Reject, Accept with Conditions, Reject suggest another journal, and Conditional Accept. To the right of this list, a purple callout box labeled '1. Select the Decision' has an arrow pointing to the 'Make a Decision' tab. Below the list, a text area labeled 'Decision Comments:' is shown. A purple callout box labeled '2. Add Decision Comments' has an arrow pointing to this text area. Below the text area, a purple callout box labeled '3. Create Draft Email' has an arrow pointing to the 'Create Draft E-Mail' button at the bottom left. To the right of the text area, a purple callout box labeled '4. Commit Decision' has an arrow pointing to the 'Commit Decision' button at the bottom right. The bottom of the interface features three buttons: 'Create Draft E-Mail' (with an envelope icon), 'Save' (with a checkmark icon), and 'Commit Decision' (with a checkmark and document icon).

Note: Decision comments are internal use only and will not be shared with the author.

Be sure that when you are creating the draft of the final decision that you check to see if you have multiple decision letters to choose from.

Subject: ScholarOne University Training Workflow 1 - Decision on Manuscript ID MCU1-
Body: @@date to be populated upon sending@@

Dear Miss Author:

Manuscript ID MCU1-2014-06-0018 entitled "Review for TW Market" which you submitted to the ScholarOne University Training Workflow 1, has been reviewed. The comments of the reviewer(s) are included at the bottom of this letter.

The reviewer(s) have recommended publication, but also suggest some minor revisions to your manuscript. Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript.

To revise your manuscript, log into <https://mc-beta.manuscriptcentral.com/s1u-wf1> and enter your Author Center, where you will find your manuscript title listed under "Manuscripts with Decisions." Under "Actions," click on "Create a Revision." Your manuscript number has been appended to denote a revision.

You will be unable to make your revisions on the originally submitted version of the manuscript. Instead, revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the track changes mode in MS Word or by using bold or colored text.

Rescinding a Final Decision

If a decision has been sent to the Author in error and new decision needs to be sent, the Editor can go to the **Manuscript Information** tab, if configured, and rescind their decision. Using the **Scroll To...**, find the **Final Decision** and jump to that section.

In the Final Decision section click on the **Rescind** icon to make a new decision.

The manuscript will move back to the Decision tab and a new e-mail can be created and sent.

Note: If the Editor does not have the ability to rescind the decision, they will need to contact the journal admin to have the decision moved back.

MAKE RECOMMENDATION – ASSOCIATE EDITOR

In this example workflow, the Associate Editor will make a recommendation to the EIC. The EIC will make the final decision. The Associate Editor will need to choose a recommendation and then fill out the comments to the EIC and comments to the Author section. If configured, the Associate Editor will also be able to attach files to their recommendation.

APPROVE PRELIMINARY DECISION – EIC

The EIC can also choose to Edit the e-mail or send back to the Associate Editor.

Editor Approve Decision

Decision made by Rogers, John on 02-Nov-2017

Decision: Major Revision

Comments: the epigenetics part of this study is of interest to BDR readers, and appears to be well done. The choice of cell line and the timing of taking neural tissue from mouse embryos are not optimal for the intended purposes (see reviewer 2 comments). However, if the authors emphasize developmental neurotoxicity rather than NTDs, I think the study is still relevant. Some additional data would enhance the study, as suggested by both reviewers.

MAKING AN IMMEDIATE DECISION - EIC ROLE

If configured for your journal, the final decision-maker can bypass the usual peer review process. Because this action takes place outside the usual workflow, this task displays in the manuscript's Manuscript Information tab or on its own task related tab.

EIC IMMEDIATE DECISION FROM THE MANUSCRIPT INFORMATION TAB

From the Manuscript Information tab, go to the **Scroll To** option and find **EIC Decision** or **EIC Immediate Decision** to jump to that section.

Once the EIC is at that section they can make an immediate decision just like they would a final decision.

The screenshot shows the 'EIC Immediate Decision' form. The form has a title bar 'EIC Immediate Decision' and a section 'Make a Decision' with a list of radio buttons: 'Immediate Accept', 'Immediate Minor Revision', 'Immediate Major Revision', 'Immediate Revise for Language Editing', 'Immediate Reject & Resubmit', and 'Immediate Reject'. Below this is a text area for 'EIC Decision Comments'. At the bottom, there are three checkboxes: 'Create Draft E-Mail', 'Save', and 'Commit Decision'.

EIC IMMEDIATE DECISION FROM A TASK-RELATED TAB

Some sites are configured such that the Immediate Decision is a separate task related tab.

MANUSCRIPT TRANSFER

Editors may choose a decision type of Reject with Transfer. Journals may be configured to allow transfer to a single journal or allow the author to choose from a selection of journals.

Making the Reject with Transfer Final Decision by the Editor

► Reject and Transfer as a Final Decision

1. Access the **Manuscript Details** page for the manuscript to reject and transfer.
2. Select the decision to **Reject with Transfer**.

3. Select the journal site you would like to transfer the manuscript to.

a. Single journal option:

AE Decision

Make a Decision

☐ Accept
☐ Accept for First Look
☐ Minor Revision
☐ Major Revision
☐ Reject & Resubmit
☐ Reject
☐ Provisional Acceptance
☐ Reject with Appeal
☐ Reject with Transfer

Transfer to: Select a site

Decision Comments:

Select a site
 clientreviewwb - Client Review B
 salesreviewbooks - Sales Review Books
 testc - TestC

b. Transfer Choice for Authors option:

EIC Decision

Make a Decision

☐ Accept
☐ Minor Revision
☐ Major Revision
☐ Revise for Language Editing
☐ Reject & Resubmit
☐ Reject
☐ Reject with option to Appeal
☒ Reject and Transfer

Authors will be offered a choice of transfer to journals selected below:

☒ Chicken Journal - zzzbjoc
☒ Egg Journal - zzzegg
☐ Dog Journal - zzzdog
☐ Cat Journal - zzzcat
☐ Journal of Yesterday - zzzyst
☒ Journal of Tomorrow - zzztmr
☐ Lizard Journal - zzzliz
☐ Parrot Journal - zzzparrot
☐ Cow Journal - zzzcow

Decision Comments:

☒ Create Draft E-Mail
☒ Save
☒ Commit Decision

EIC Decision

Make a Decision

☐ Accept
☐ Minor Revision
☐ Major Revision
☐ Revise for Language Editing
☐ Reject & Resubmit
☐ Reject
☐ Reject with option to Appeal
☒ Reject and Transfer

Authors will be offered a choice of transfer to journals selected below:

☒ Chicken Journal - zzzbjoc
☒ Egg Journal - zzzeggs
☒ Journal of Tomorrow - zzztmr

Decision Comments:

☒ Create Draft E-Mail
☒ Save
☒ Commit Decision

- Click the **Commit Decision** button.

BLINDED REVIEWS

If an assigned Editor is an author or co-author on a paper, they will not be able to view the manuscript to perform tasks such as Select, Invite, or Assign Reviewers. When they access the manuscript list for the task, the paper will not display in the list and a note will appear on the header indicating there is a blinded paper. Alert the EIC or Admin to the problem to have the manuscript reassigned.

Select Reviewers			1 Blinded		Manuscripts 1-2 of 2	
Manuscript ID ↑	Manuscript Title	Date Submitted ↓	Status	Take Action		
Manuscript Type	Submitting Author					
MCU1-201703-0002-IR <i>Invited</i>	NEW TITLE [View Submission]	12-Sep-2017	The Editor is blinded on a paper if they are an Author or Co-Author			
Invited Review	 Author, Jane (contact) (proxy)		• Select Reviewers (Due 18-Mar-2018) 0 active selections; 0 invited; 0 agreed; 0 declined; 0 returned		Select... ▼	

VIEWING MANUSCRIPT INFORMATION

THE MANUSCRIPT INFORMATION TAB

The Manuscript Information tab displays by default when you access the Manuscript Details page. It can be accessed through the tab at the left side of the Manuscript Details page as well.

Your journal's Manuscript Information tab contains some/all of the following sections:

- Manuscript header
- Peer review milestones
- Version history
- Author-supplied data
- Companion paper information
- Information related to all previous actions performed on the manuscript (if configured)
- Flag Manuscripts
- Notes (Notes display at the bottom of all General Information tabs)

Manuscript Header

Manuscript Details contain a summary section at the top. This header remains at the top of pages throughout the peer review process.

The screenshot shows a manuscript header for ID **MCU1-2013-10-0016**. It includes submission details: Submitted: 08-Apr-2014; Last Updated: 22-Apr-2014; 14 days, 3 hours in review. The title is **The common cold**. The author is **Author, Alan** (contact). The status is **Original Article**. A **Major Revision** was submitted on **22-Apr-2014**. The due date is **22-May-2014**, and it is scheduled to start archiving in 120 days. Assigned roles include AE: **Baker, Gwen**, EIC: **Not Assigned**, and ADM: **Baker, Gwen**. At the bottom, there are links for HTML, PDF, Supplementary Files, Original Files, Abstract, Cover Letter, and External Searches.

The header may list the following:

- Manuscript ID – may include a revision number, “Invited”, or “Resubmission”
- Notes link – appears to the left of the manuscript ID.
- Title
- Companion Paper link – if applicable, appears to the left of the manuscript ID.
- Author (and any co-authors) – author's name is hyperlinked for e-mail correspondence
- Status – appears green if OK, red for overdue
- Dates – submitted, last updated, total time in review
- Names and roles of people assigned to the manuscript. Names are hyperlinked for e-mail correspondence. If you have administrative permissions, you also see proxy links.
- Author Due – Date for Revised Paper
- Proofs and files – links to the HTML and PDF proofs of the submission as well as other associate files and the Author’s response (on revisions and resubmissions only)

Scroll To...

To jump directly to a section of the Manuscript Details page, select from the Scroll To... dropdown list.

Viewing Proofs

View proofs by clicking the links in the header. See the *Viewing Manuscript Proofs and Files* section of this document for more details.

Version History

You have access to all versions of a manuscript. Revisions are indicated by a revision number appended to the Manuscript ID. (E.g., R1 or R2.)

Version History					
	Manuscript ID	Manuscript Title	Date Submitted	Decision Letter & Response	Switch Details
you are viewing	MCU1-2013-05-0006.R1	Monday training	10-Jun-2013	view decision letter view the decision letter for MCU1-2013-05-0006.R1	
	MCU1-2013-05-0006	Monday training	20-May-2013	view author's response view the authors response to the decision letter for MCU1-2013-05-0006 view decision letter view the decision letter for MCU1-2013-05-0006	

- Click the links in the **Decision Letter & Response** column to view decision-related correspondence regarding a previous version.
- Click on the **Switch Details** button to view the Manuscript Details page for a previous version.

Additional Version Information

To help you keep track of which version you are currently viewing, a colored bar displays along the left of the page indicating a revision.

- Original submission: no colored bar
- Revision: purple bar
- Resubmitted Manuscript: blue bar

Revised and Resubmitted files will also include a link to the Author's response on the header.

When you are on the a **Task Related Tab** such as Invite Reviewers, The Version History will appear on the right side of the screen

Clicking on the **View Review Details** for the previous version will give you the Author's Response, Decision Letter, and Reviews.

Plagiarism Checking

Plagiarism checking is accomplished by a third-party provider, but is fully integrated within *ScholarOne Manuscripts*. Prior to configuring plagiarism checking within a journal site, clients must establish an account with the CrossRef and iThenticate services.

More information about signing up for CrossRef and iThenticate can be found at <http://www.crossref.org/crosscheck.html>.

► Using iThenticate Plagiarism Checking

1. Access the iThenticate feature on the Manuscript Information tab.

2. Select the file to submit for submission to iThenticate from the drop-down list then click the **Submit** button.
3. You will receive a message stating that the file was submitted. When complete, select the link to View the Originality Report.
4. The Report displays.

Plagiarism Check - iThenticate User Guide

23-Nov-2013 10:16AM >PG-1< A Cloud-Storage RFID Location Tracking System Yeong-Lin Lai, Member, IEEE and Jay Cheng Department of Mechanical Engineering, National Chinghsia University of Education, Chungking 50007 This paper presents a cloud storage radio-frequency identification (RFID) location tracking system designed on the wireless communication technology, wireless sensor network (WSN) technology, and the cloud computing based on cloud computing technology. The non-open space signal attenuation model (SAM), reduced signal strength link quality indicator (LQI), and cloud positioning algorithm (CPA) were established in this system. A network node tracking system was created. The cloud-storage RFID location tracking system provided real-time position and trajectory, and returned the optimal path information which was recorded in sensors. The software as a service (SaaS) user for cloud computing to enhance system positioning speed and user convenience. Non-SAM and reference nodes were utilized to reduce location errors in the non-open spaces. High positioning accuracy improvement and low bias achieved by the cloud-storage RFID location tracking system. Index Terms—Cloud storage, radio frequency identification, location tracking. I. INTRODUCTION RADIO-FREQUENCY identification (RFID) [1]-[9], Wireless sensor network (WSN) [1], [6] and cloud computing [1], [10] are promising technologies for the modern world. The cloud computing has the advantage of fast, low cost, easy operation and cross-platform. It has been widely used on various services, such as network service, social networking, tracing goods service, highway toll query, health care, and so forth. In addition, the cloud computing can be applied to tracking and positioning systems to improve calculation speed and reduce hardware costs. When building a tracking system, in order to achieve rapid and complex functions, a lot of hardware is required. In this paper, a new cloud-storage RFID location tracking system combines cloud computing, database systems, and personal homepage program (PHP) language technology for data processing and recording to reduce the hardware requirements of each RFID node. Users can access cloud services through a browser, a desktop application, or a mobile application. The system is capable of providing not only high positioning accuracy but also high calculation speed. II. SOFTWARE ARCHITECTURE Software architecture is composed by three basic service modules: model, control logic, and view. The readers were adjusted based on signal error reader. Each reader sent data to cloud server wireless network. Its order to improve the signal and reduce indoor signal attenuation model reference tags were set up in a non-open space tags provided error correction for signal attenuating RFID data to the cloud servers. The cloud servers computed and calculate the readers. In addition, the cloud servers call from reference tags to connect the SAM, LQI, CPA, the system analyzed the RSSI and distance between object to each reader and movement track. These data were stored in cloud and provided for user queries. User interface provided a very convenient for users. The PHP and CSS Web technology positioning information can be displayed at friendly interface was provided. The objects' interfaces were accessed by users via a web browser.	2259 words • 7 matches • 5 sources PG-1.pdf BY YEONG-LIN LAI Quotes Included Bibliography Excluded 4% SIMILARITY Match Overview <table border="1"> <thead> <tr> <th>Match Number</th> <th>Source</th> <th>Words Matched</th> <th>Similarity Score</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>CrossCheck 38 words Lai, Yeong-Lin, and Chun-Yi Zheng, "Electromagnetic Characteristics of a Novel Radio-Frequency Complementary I..."</td> <td>38 words</td> <td>2%</td> </tr> <tr> <td>2</td> <td>Internet 24 words crawled on 22-Sep-2010 http://csie.nthu.edu.tw</td> <td>24 words</td> <td>1%</td> </tr> <tr> <td>3</td> <td>Internet 10 words crawled on 03-May-2011 www.signal.uu.se</td> <td>10 words</td> <td><1%</td> </tr> <tr> <td>4</td> <td>CrossCheck 8 words Sharad Jain, "An Improved Localization Scheme Using Active RFID for Accurate Tracking in Smart Homes," 2010...</td> <td>8 words</td> <td><1%</td> </tr> <tr> <td>5</td> <td>CrossCheck 5 words Yeong-Lin Lai, "3D high-brightness autostereoscopic DIC systems with LED backlight", 2012 IEEE International C...</td> <td>5 words</td> <td><1%</td> </tr> </tbody> </table>	Match Number	Source	Words Matched	Similarity Score	1	CrossCheck 38 words Lai, Yeong-Lin, and Chun-Yi Zheng, "Electromagnetic Characteristics of a Novel Radio-Frequency Complementary I..."	38 words	2%	2	Internet 24 words crawled on 22-Sep-2010 http://csie.nthu.edu.tw	24 words	1%	3	Internet 10 words crawled on 03-May-2011 www.signal.uu.se	10 words	<1%	4	CrossCheck 8 words Sharad Jain, "An Improved Localization Scheme Using Active RFID for Accurate Tracking in Smart Homes," 2010...	8 words	<1%	5	CrossCheck 5 words Yeong-Lin Lai, "3D high-brightness autostereoscopic DIC systems with LED backlight", 2012 IEEE International C...	5 words	<1%

Note: On revisions, you may view the originality report run on a previous version. It will appear as a link in the Plagiarism Check section shown above.

UNUSUAL ACTIVITY DETECTION

Unusual activity detection identifies unusual activity by users during submission and review. Journals will see a risk indicator on the manuscript header. The risk indicator is derived from using proprietary algorithms based on existing web traffic and server data such as when Reviewers are suggested by the Author and when Reviewers use a non-institutional email address.

Visibility to the use of and report from this feature is limited to the publisher, Editor role types, and Admin role types. The public, Authors, and Reviewers will not know it is in place unless you decide to announce its use by your organization.

UNUSUAL ACTIVITY INDICATORS FOR STANDARD ACCESS

A red or yellow status indicator will appear on the manuscript header when unusual activity has been detected. Editor and Admin roles with standard access will see the indicator while users with full access will have a link to a report. By default, Editors will have standard access.

Example of High Risk Alert, shown on Manuscript Details

[illegible]

Example of Medium Risk Alert

Once it has been cleared, a message will appear at the top of the form:

Also, the unusual activity indicators will turn green:

FULL ACCESS RESPONSIBILITIES (ADMINS BY DEFAULT)

Users with Full Access have the ability to:

- Review the activity report
- Clear flagged submissions and enter notes

Note: If you have an editor role but have been granted full access, please refer to the Admin User Guide for details.

SUBMISSION “WHAT IS THIS?” INFORMATIONAL POP-UP

All of the unusual activity indicators will have a link to the informational pop-up via the hyperlink, “What is this?” This pop-up will provide the following:

- Information and explanation of the feature
- Why it is important to the industry
- Next steps for the journal when they suspect unusual activity
- Legal disclosures

Journal Name

Unusual Activity Detected

WHAT IS THIS?

In order to prevent unusual submission and peer review activity, ScholarOne has developed a program to detect actions that may warrant further investigation by the journal.

Journal staff can see a risk indicator on all submissions and reviews. This indicator status is calculated using proprietary algorithms that analyze web traffic and server data such as when Reviewers are suggested by the Author and when Reviewers use a non-institutional email address.

WHY IS THIS IMPORTANT?

The integrity and trust of journals is at risk when Authors and Reviewers “game the system”.

Peer review, in particular, is the key element in ensuring the quality and validity of published papers. Peer review relies on impartial opinions given by suitably qualified and experienced peers. As with any system, there are opportunities for unethical practices. The new algorithms help to thwart these practices.

WHAT TO DO IF YOU SUSPECT UNUSUAL ACTIVITY

Consult guidelines provided by the journal and/or publisher of the content on this site. You may also want to speak to with the Journal Admin about details.

For more information, go to the [Committee on Publication Ethics: COPE](#) web site.
